

True Velocity's .308 Winchester composite –cased ammo is 30% lighter than loaded comparable brass ammunition, reduces heat transfer to your firearm, offers minimal standard deviation in muzzle velocity, reduced muzzle flash, increases powder burn efficiency, and offers enhanced accuracy. The composite cases are outfitted with a magnetic steel base for easy retrieval.

Grain Weight	Projectile	Muzzle Velocity (FPS)	Muzzle Energy (Lb–ft)	Barrel Length
165	Accubond	2650	2573	24"
165	GameKing	2700	2670	24"
168	HPBT	2650	2619	24"
168	SMK	2650	2620	24"

# .308
